

Buccaneer Beach - Gibbings Island

Buccaneer Bch is probably one of the largest beaches in the area. This beach is Kim Keevil 'Kimbo' favourite beach, you can still see the remains of the 'Clam Bar' that he build probably 20yrs ago. There is a monument his family placed there after his death. Kim was a well loved derby Icon that we dedicate the Buccaneer Classic fishing comp in his memory.

The flat area of reef and beach is suitable for anchorage just ensure to set anchors well and use 2 anchors if there is a lot of boats there because you wont have swinging room. Don't anchor in the deep as the currents out there on big tides are fast, the reef is suitable to dry out on.
